

German Campus Weeks 2020

Building Tomorrow: Diversity in Germany Today

**Oct. 15th to
Nov. 9th**

Join us on zoom!

Come learn about how Germany is building for the future by engaging with issues of diversity today. Whether in addressing right-wing extremism, the migrant crisis and its effects, the establishment of diverse and inclusive communities, or the lingering effects of the Holocaust, Germany offers fascinating insight into issues of diversity today.

Join us for the following series of events, all accessible online! To view the film, you will need to register in advance. Please register for each event individually through the links listed below.
